Dassault - Marvel of Engineering

Big cabin, great short-runway performance and long legs.
This has been the winning formula for Dassault's Falcon 900
series for nearly 30 years through multiple upgraded iterations

Trijet design for extreme operations

The Falcon 900's trijet design lets you get into and out of airports you wouldn't dare try to use in a comparable twinjet, especially on hot days. Its intelligent, strategically applied combination of fuselage materials deliver superior fuel economy.

High class delivered

All this makes the Falcon 900B one of the most famous and safest business jet on the market, mixed with the high class of French elegance.
